

MS20 & MS30 WEATHERPROOF INSTALLATION DETAILS

Installation of the MS20 and MS30 weatherproof magnet on an exterior gate and gate post.

- 1) Screw the magnet to the **fixed** gate post.
- 2) Fabricate a bracket to allow fixing of the armature to the **moving** gate, or alternatively we can provide an MS20 or MS30 Z bracket.
- 3) Offer up the armature to the magnet and mark fixing position on gate for the armature bracket, and screw into place.
- 4) Wire magnet to PCB which can be located remotely within PSU and switch supply on or off to lock or unlock.
