

## DC111

Surface - overhead - door mount contact - triple biased

### High Security Contact

---

The triple biased reeds of the DC111 magnetic contact make defeat of the switch with external magnets virtually impossible. For added security, magnetic field tamper and pry tamper are standard features.

### Applications

---

The DC111 is designed for protecting high-security facilities such as airports, warehouses, manufacturing plants, banks, and military bases.

### Kenmerken

---

- Triple-biased for increased security
- Pry tamper included
- No field adjustment
- Standard 2 m wire length
- Tamper loop provided

# DC111

Surface - overhead - door mount contact - triple biased

## Technische gegevens

|                              |                           |
|------------------------------|---------------------------|
| Operating gap                | 5 mm (min.); 15 mm (max.) |
| Connections (armoured cable) | 6 wires; 2 m              |
| Contact type                 | CO                        |
| Dimensions (W x H x D)       |                           |
| Magnet                       | 108 x 38 x 19 mm          |
| Contact                      | 108 x 38 x 19 mm          |
| Material                     | Anodised alloy            |

## Bestelinformatie

| Type nummer | Omschrijving  |
|-------------|---|
| DC111       |   |
| DC111       | Surface - overhead - door mount contact - triple biased |
