

SiPass integrated MP2.8+ Upgrade

Order details form

General Information

Please note that this form should always be accompanied by a valid SAP purchase order which includes all the necessary information to create your CSID and the details will be deemed to be the correct master information. For references of all available SiPass® integrated part numbers and descriptions, please see the following pages of this document. When you have completed the information below please save Page 4 of this PDF as a new document with the Site Name and Purchase order number in the title i.e. Test Lab POXXXXXXXXX.pdf.

General Information

SiPass 2.80 uses the Siemens License Management System (LMS) and follows the Siveillance Software Maintenance Program.

Which steps are needed to upgrade an existing SiPass license to a LMS based SiPass 2.80 license?

An Excel upgrade calculation sheet can be used to estimate upgrade cost of License Upgrade Calculation sheet is available from customer service team in Vanderbilt (contact details listed below)

Note: During Migration to 2.80 is it possible to reduce license features or values like the amount of Workstations, Cards or Doors which not needed anymore (e.g. the license is based on a CerPass Migration). Migration calculation is based on the Standard License package, doesn't matter if the original Basic Package was Optima, Facility or Corporate.

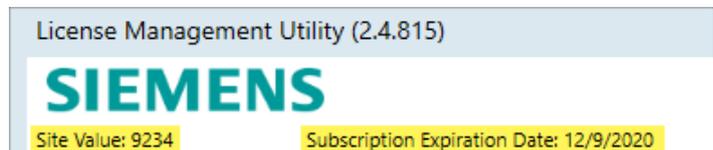

How to calculate SUR?

12 month Software Subscription is included and will start with the activation of the SiPass Base License via LMU. After the activation of the license it is possible to order up to 3 years (maximum) software subscription.

ASL5000-SUR SiPass SUR (6FL7820-8AA30-1L) multiplied by the site value have to be ordered per year

LMU show the site value and the Subscription Expiration Date

**What happens if Subscription is expired?
No support provided or patches can be applied!**

As long the Subscription is not expired, any patch for 2.80 can be applied. Upgrade to 2.85 and further versions of SiPass are possible.

No need to buy anymore an update to higher version.
