

ProSeries Combination Communication/Automation Module

PROWIFIZW-EU

The ProSeries Wi-Fi/Z-Wave Communications Module combines the connectivity of Wi-Fi and the automation of Z-Wave into one easy to install module. The module connects directly to the control panel and is powered by the control panel's connection.

The PROWIFIZW-EU Communications Module provides a communications path for alarm signaling and remote connectivity to advanced functionality of Wireless Keypad services.

The PROWIFIZW-EU module enables local automation control over Z-Wave capable lights, locks and thermostats. Optionally, automated control can be extended remotely by combining with Resideo's Total Connect Remote Services.

Compatible ProSeries control panels include:

- PROHP-EU

The PROWIFIZW-EU requires a router and Internet service for Wi-Fi connection to the central station.

ProSeries Communication and Combination Communication/Automation Module

TECHNICAL SPECIFICATIONS

COMPATIBILITY:

All ProSeries control panels

FREQUENCY:

Wi-Fi 802.11 b/g/n
868 MHz Z-Wave Plus™

INPUT VOLTAGE RANGE:

3.6 – 14V, Max 17V

INPUT VOLTAGE:

3.5V

CURRENT USE:

250mA

BATTERY BACKUP:

Yes (panel)

DIMENSIONS:

67mm L x 40mm W

OPERATING TEMPERATURE:

32° to 122° F/0° to 50° C

OPERATING HUMIDITY:

95% max. non-condensing

APPROVALS:

CE
EN50131-10, EN50136-1, EN50136-2
