

Texecom

Looking after the things people care about, wherever they are.

Texecom's electronic security products and services protect millions of people and properties around the world.

Texecom is leading the way with digital and cloud-based solutions, adding value and providing interoperability with wider security and building management systems - offering increasingly connected, intelligent and dynamic solutions to meet the world's future security challenges.

Ricochet® wireless mesh technology

System Users; Texecom Connect lets you take direct control of your alarm system from a tablet or smartphone device - from anywhere in the world.

Alarm Companies; Texecom Cloud provides your business the tools to manage, configure and control your alarm system and Texecom Connect app portfolio.

Engineers; The free app for iOS and Android that provides support and product information all at the touch of a button.

Training; From beginner to expert, our courses give installers the technical expertise needed to maximise the benefits of Texecom alarm systems.

BTEC Courses

Online Training

Alarm Signalling; Your business just got better. Introducing Texecom Monitor. Texecom Monitor offers signalling to leading Alarm Receiving Centres and is part of Texecom's suite of digital solutions specifically designed to help you optimise and revolutionise your business.

Texecom Monitor creates greater efficiencies across your business. Faster to install. Simple and convenient. Integrated & scalable. And fully compliant to industry standards.

With Texecom Monitor, there's no waiting for bespoke, site-specific hardware or labour-intensive ARC account set-up. And, you can configure ahead of time, via Texecom cloud, making your life easier while saving you time and money.

What you need

Signed up for all the digital services on offer? Great. Now you'll need to make sure your system is connected in order to maximise the value to you and your business. Choose from our range of connectivity options, and make sure your system is compatible with Texecom's digital suite.

Communicating control panels

The Premier Elite Series provides a single, comprehensive system architecture and peripheral range that scales from the simplest and smallest security applications through to the largest and most complex.

Featuring a common programming platform, interoperable wired and wireless peripheral devices, design flexibility and integration capabilities, the Premier Elite Series provides a high performance security solution for applications around the world.

Common programming platform

Each Premier Elite control panel shares the same programming platform and peripheral devices, ensuring instant product familiarity across the range.

Greater scalability

Premier Elite control panels can accept multiple *Ricochet* capable wireless expanders increasing the wireless device capacity.

SmartCom communications

Communicating exclusively using outbound connections, SmartCom communicators remove the need to open any router ports, ensuring simplicity of installation and maximum security.

Control Panels & Communicators

Keypads

Range of surface finishes

The Premier Elite keypads compliment any environment with a selection of surface finishes including: Diamond Black, Gunmetal, Polished Chrome, Satin Chrome, Polished Brass & Polymer (FMK only).

Spot the difference

The Premier Elite LCDLP-W is all but identical to its wired equivalent - in size, aesthetics and performance. The only difference is wireless connectivity powered by *Ricochet* mesh technology, the world's most robust wireless security technology.

SmartKey with prox

The Premier Elite SmartKey features a replaceable battery and an integral RFID proximity tag. The RFID proximity tag is ideal for use with compatible keypads, freeing up the wireless keyfob to control outbuildings or to act as a dedicated panic alarm.

Expanders & Power Supplies

Premier Elite 8XP 8 zone expander

- 8 Additional Outputs
- 1 Auxiliary Input
- Speaker Driver
- Grade 3, Class II

Premier Elite 60iXD Expansion module

- 60 Additional Zones
- Remote Wired
- Plug-On (Local mode & Network mode)
- Expansion module providing two iD loops each supporting 30 iD biscuits

Premier Elite 8XP-W 8 zone wireless expander

- Wireless Monitor Software Diagnostics
- Engineers Keypad Connectivity
- EN50131-3, EN50131-5-3 Grade 2 Class II

Premier Elite RM8 Relay module

- 8 Relay Outputs
- Remote Wired
- Plug-On - Premier Elite Series Only (except Premier Elite 24)

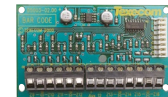

Premier Elite 32XP-W 32 zone wireless expander

- Wireless Monitor Software Diagnostics
- Engineers Keypad Connectivity
- EN50131-3, EN50131-5-3 Grade 2 Class II

Premier 8XE Plug-on 8 zone expander

- Local plug-on Zone Expander for use with Premier Elite 24 control panels
- Additional 8 programmable EOL zones
- Grade 2, Class II

Premier Elite PSU200XP Switch mode power supply

- Energy efficient 2.5A switch mode power supply with Premier Elite 8XP expander
- Full monitoring & Diagnostics with Premier Elite Control Panels
- Grade 3, Class II

Premier Elite PSU200 Switch mode power supply

- Energy efficient 2.5A switch mode power supply
- Grade 3, Class II

Control Panel Accessories

Premier Elite TTLCom Network to fibre optic TTL converter

- Converts network signals to TTL, and vice versa

Premier Elite ComPort+ Plug-on PCB

- Converts the on-board digital communicator connector on Premier Elite 24-168 into serial communications port ComPort 3
- Allows three serial communication ports to be used simultaneously for use with compatible products

Premier Elite USB Com USB interface connector

- Connection between control panel and PC
- Local upload/download

Premier Elite PC Com Serial interface connector

- Connection between control panel and PC
- Local upload/download

Premier Elite Flasher Interface Flasher interface

- Update the Premier Elite Control Panel firmware

Access control

Premier Elite iProx

- Can be used as a single door access controller

Premier Elite External iProx Coil

- For use with Premier Elite iProx and Texecom Proximity Tags
- Allows the user to disarm the alarm system externally

All your motion detection needs. Captured.

A security system is only as good as its ability to detect. Your reputation, your business, your future, and your customers' wellbeing, all depends on making the right choice of motion detection.

Texecom's new range of motion detectors, Capture, is our highest performing, most reliable, easiest to install range of detectors, ever.

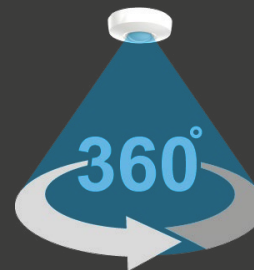

Double the detection

Each Capture model features double the number of detection points compared to previous Texecom detectors.

True 360° pickup

All Capture ceiling mount models use omni-directional quad element PIR sensing for true 360° pickup.

Compliant coverage

Unlike many other manufacturers, the entire coverage pattern is independently certified to EN50131-2.

Perimeter Detectors

Impaq S Shock sensor

- VIBER™ Accelerometer Technology
- Digital Signal Processing
- 5 Selectable Digital Sensitivity Settings
- Available in White, Brown, Grey & Black
- EN 50131-2-8 Grade 2

Premier Elite Micro Shock-W Miniature Wireless Shock Sensor

- Small size - 57mm x 27.5mm x 8.2mm
- Superior accelerometer technology
- 4 colour options: White, Brown, Grey & Black
- LED assisted setup procedure
- 3 Year typical battery life
- EN50131-2-8 Grade 2

Impaq SC Shock and contact sensor

- VIBER™ Accelerometer Technology
- Digital Signal Processing
- 5 Selectable Digital Sensitivity Settings
- Available in White, Brown, Grey & Black
- EN 50131-2-8 Grade 2

Premier Elite Micro Contact-W Miniature Wireless Magnetic Contact

- Small size: 57mm x 27.5mm x 8.2mm
- 4-Year typical battery life
- 4 colour options: White, Brown, Grey & Black
- LED assisted setup procedure
- EN50131-2-6 Grade 2

Impaq S G3 Grade 3 shock sensor

- VIBER™ Accelerometer Technology
- Digital Signal Processing
- 5 Selectable Digital Sensitivity Settings
- Intuitive LED Assisted Setup Procedure
- Built-in EOL Resistors
- EN 50131-2-8 Grade 3

Impaq SC-W Wireless Shock and Contact

- VIBER™ Accelerometer Technology
- Digital Signal Processing
- Roller Shutter Input for 'Partly Open' Protection
- Available in White, Brown, Grey & Black
- EN50131-2-8 Grade 2
- EN50131-2-6 Grade 2

Safety Devices

Premier Impaq Glass Break

Acoustic glass break sensor

- Suited for plate, tempered, laminated & wired glass types
- Adjustable sensitivity
- Detection/disable/comfort LED
- Microprocessor technology
- EN 50131 Grade 2

Premier Elite PA DP-W

Wireless Double Push Panic Alarm

- Joint Venture with Elmdene
- Typical 2 to 3 Year Battery Life
- Suitable for Commercial Applications

Premier Elite OH-W

Wireless Optical & Heat Fire Detector

- Joint Venture with Apollo
- 1.5 Year Battery Life
- Built-in 85dB(A) Sounder

External Detectors

Premier External TD

Non-overlapping twin mirrored PIR

- Adjustable optics and adjustable sensitivity
- Digital temperature compensation
- IP65 sealed enclosure
- Day/night mode and high white light immunity
- Mounting height: 1.0-1.4m
- Pole bracket available separately
- EN 50131 Grade 2

Premier External TD-W

Wireless external detector

- Non-overlapping Twin Mirrored PIR Optics
- IP65 sealed enclosure
- Selectable 12m/8m/5m/2m Range
- 90° Coverage - Rotatable through 180°
- Perfect for Security / Lighting / Gates etc.

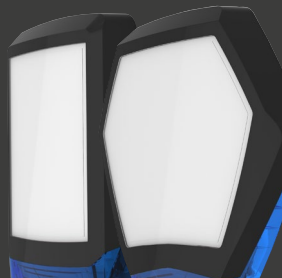

Next generation external sounders with graphic inserts

Illuminate your logo, elevate your brand, deliver the highest quality security. The Odyssey X range brings innovation and a modern twist to external sounders, providing unparalleled performance and extensive features to benefit installers and end users alike.

Cover combinations

Odyssey X backplates are complemented by a series of cover options in X1 and X3 forms. X1 and X3 covers come complete with integral backlight compatibility.

Custom graphic inserts

Available directly from Texecom, these photo quality custom designed graphic inserts replace traditional screen printing, enhancing quality and removing the need to stock custom screen printed covers.

Six backplate options

Choice of illuminated, non-illuminated, wired, wireless & dummy versions.

Backplates

Odyssey X-BE

Grade 2 sounder with integral backlight

- 109dB (A) piezo sounder
- Wall & cover tamper
- Patented engineer hold-off mode
- Alternating white LED indication
- Grade 2 Class IV

Odyssey X-E

Grade 2 sounder

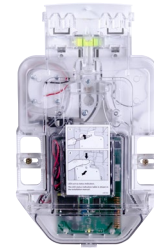

- 109dB (A) piezo sounder
- Wall & cover tamper
- Patented engineer hold-off mode
- Alternating white LED indication
- Grade 2 Class IV

Odyssey X-W

Wireless sounder

- 105dB (A) piezo sounder
- Wall & cover tamper
- Selectable comfort LEDs
- Ricochet® mesh technology
- 8 x AA lithium batteries included
- Grade 2, Class IV

Odyssey X-D

Dummy sounder

- No electronics included
- Imitation sounder
- Low cost deterrent
- Accepts X1 and X3 covers

Grading N/A

Odyssey X-B

Grade 3 sounder with integral backlight

- 115dB (A) twin piezo sounder
- Wall & cover tamper
- Patented engineer hold-off mode
- Battery monitoring with fault output
- Alternating white LED indication
- Grade 3 Class IV

Odyssey X

Grade 3 sounder

- 115dB (A) twin piezo sounder
- Wall & cover tamper
- Patented engineer hold-off mode
- Battery monitoring with fault output
- Alternating white LED indication
- Grade 3 Class IV

Covers

Odyssey X1 Cover

Vertically mounting external sounder

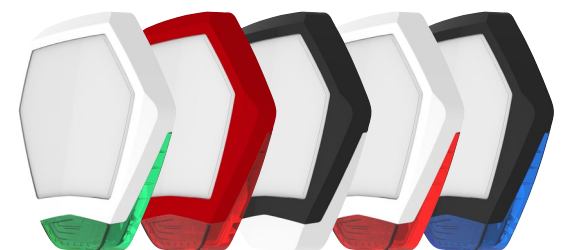

- White or black frame option
- Lens colour options: blue, red, white & green
- Integral backlight compatibility
- Photo quality graphic insert compatibility

Odyssey X3 Cover

Hexagonal external sounder

- White, red or black frame option
- White frame lens colour options: blue, red, white & green
- Red frame lens colour options: red & white
- Integral backlight compatibility
- Photo quality graphic insert compatibility

Common programming platform

Each Premier Elite control panel shares the same programming platform and peripheral devices, ensuring instant product familiarity across the range.

Wireless connectivity

Ricochet enabled wireless devices receive and repeat wireless transmissions from other devices. The size, scalability and range of the entire system are extended as wireless signalling is no longer limited by point-to-point communications.

Includes Capture

Texecom's new range of motion detectors, Capture, is our highest performing, most reliable, easiest to install range of detectors, ever.

64 Zone Wireless Kit

- 1 x Premier Elite 64-W
- 5 x Premier Proximity Tags

Product Branding

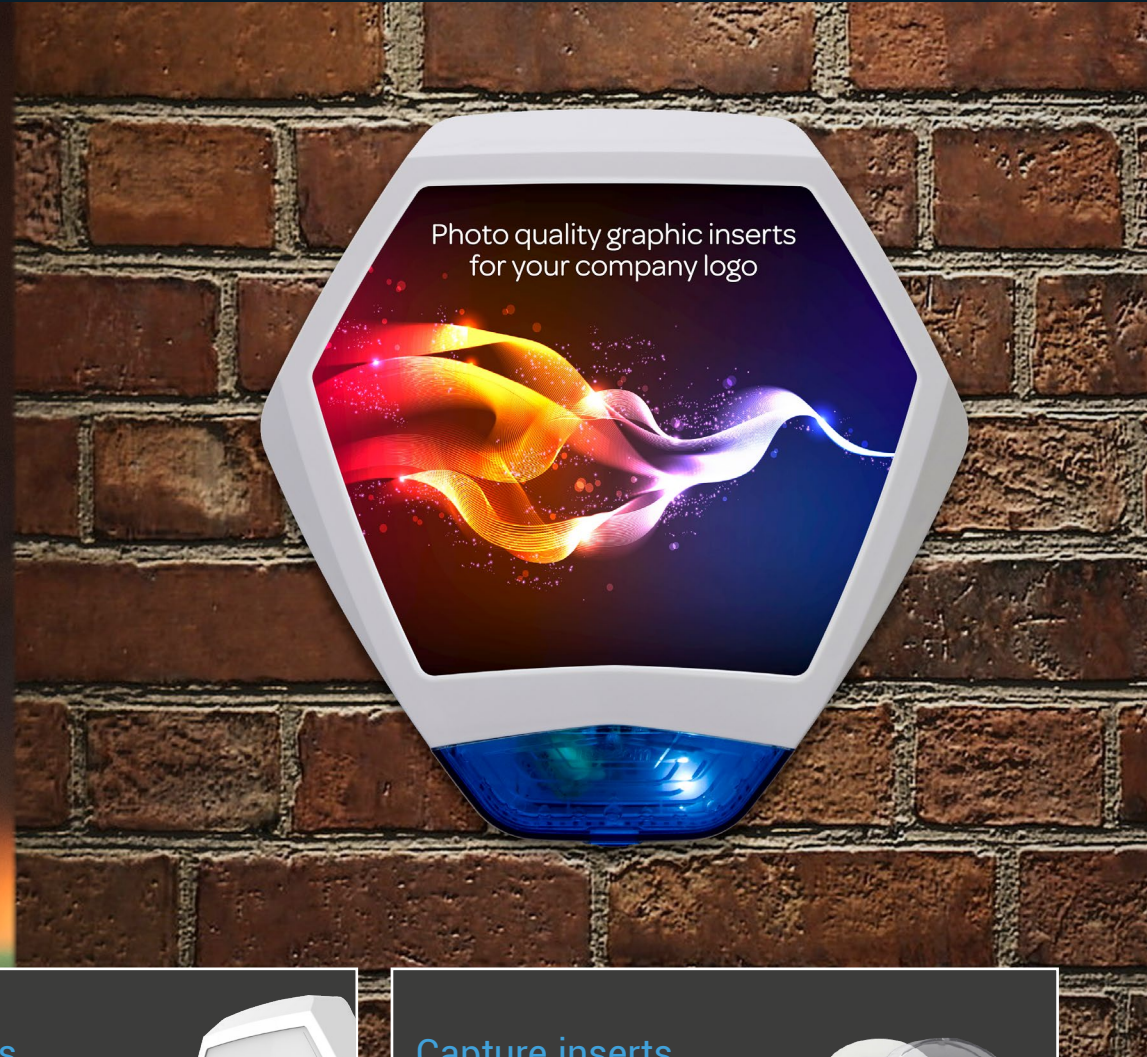

You specify the best equipment. You design the innovative security solution. You make your customer's lives and livelihoods safer.

Isn't it time you took the credit?

With Texecom you can. The Texecom Product Branding Scheme ensures your company logo and contact details are given maximum exposure.

Selected Texecom products are available with a designated installer branding position which allows you to introduce your own personalised company emblem, elevating your profile in a professional and quality manner.

[How to order >](#)

Domed emblems

Personalised company emblems are custom made by Texecom and available as a pack of 80 emblems for use on a variety of Texecom products, including keypads, control panels and expanders.

Odyssey X inserts

Available directly from Texecom, these photo quality custom designed graphic inserts replace traditional screen printing, enhancing quality and removing the need to stock custom screen printed covers.

Capture inserts

Wall mount Capture models feature a new innovative graphic insert for ultimate installer branding.
