

# EXgarde

## Access Management Software

EXgarde is a fully featured Access Management PC software application that combines an extremely intuitive graphical user interface and powerful integration capabilities in a single package.

Supporting multiple doors as standard with the option to extend this with an unlimited door licence, EXgarde meets the needs of even the largest of access control networks. With EXgarde PRO integration and expansion are key features and there are numerous possibilities to integrate with the latest CCTV and biometric technologies.

\*\* up to 25 maximum optional. \*\*\* unlimited optional.

## ORDERING INFORMATION

**Part Number: 4420-2110**

**Description:** EXgarde Express

**Part Number: 4420-2080**

**Description:** EXgarde PRO Platform

**Part Number: 4420-2081**

**Description:** Additional 32 doors

**Part Number: 4420-2111**

**Description:** EXgarde Enterprise

<sup>1</sup> Fire door release feature is not to be used as the primary method of releasing fire doors. Not available in EXgarde Express.

<sup>2</sup> Limited with EXgarde Express (see table above).

<sup>3</sup> It is not possible to add options to EXgarde Express.

**Part Number: 4420-2092**

**Description:** EXgarde PRO version upgrade

**Part Number: 4420-2094**

**Description:** EXgarde PRO feature upgrade (see expansion options datasheet)

**Part Number: 4420-2104**

**Description:** Additional 1 workstation

**Part Number: 4420-2100**

**Description:** Additional 2 workstations

**Part Number: 4420-2103**

**Description:** 1 additional tenant

## FEATURES & BENEFITS

### Intuitive graphical user interface

Straightforward operation minimising training requirements.

### In-built Wizards for common tasks

Guides the operator through key operations making use of the software simple.

### Compatible with 32-bit/64-bit Microsoft Windows® 7, Windows® XP and Windows® server 2003/2008 (Professional editions and above only)

Support for the latest versions of Microsoft operating systems.

### Fully configurable automated database backup facility

Provides peace of mind should things go wrong.

### Numerous communication methods including TCP/IP, dial-up and GSM modems

High degree of versatility allowing connection methods to suit both local small networks and site wide national and international installations.

### Detailed context sensitive help system

Assists the operator at the point that help is required.

### Automatic fire door release function

Allows the automatic unlocking of fire doors in the event of a fire<sup>1</sup>.

### Custom site graphics with animated icons for instant visibility of information

Allows simple operation of the system from a purely graphical interface<sup>2</sup>.

### Advanced prioritised alarm handling for optimum operator response time

Alarm conditions are brought immediately to the attention of the operator<sup>2</sup>.

### Personnel image capture and Photo ID badge design and print with video verification

No need to purchase a photo ID badging module. Everything is included as standard<sup>2</sup>.

### The Following features are also available with EXgarde PRO and EXgarde Enterprise:

#### Integration capability with leading manufacturers of DVR equipment and biometric readers. TDSi DIGIgarde integration included as standard

Provides a means of accessing and controlling third-party equipment through EXgarde PRO without the need to run additional applications.

#### IP camera connectivity

Standard feature allowing the display of live video feeds from any netcam camera.

#### Integration to third-party ODBC databases (using SDK or predefined protocol), building management, fire and intruder systems

A means of seamlessly transferring and populating cardholder data and events between systems.
