

Homelink Extra.

A simple device, when attached to your phone, offers a complete emergency alert system.

- Easy to use and install • Connects to any existing telephone •
- Alerts family, friends and control centres •
- Built in intruder alarm • Emergency two-way speech facility •

Scantronic
*Leading the way in
emergency communications*

A unique combination for safety and security.

Whatever the emergency, Homelink Extra has the power to deal with it quickly and effectively.

Homelink Extra combines an emergency alarm unit and intruder system, offering a reliable helpline through the normal telephone network.

Simply pressing the pendant transmitter activates the Homelink unit which will automatically dial up to 4 pre-programmed emergency numbers. Two way speech is established to give reassurance that help is on its way.

A unique feature of Homelink Extra is the built-in intruder alarm, which provides additional home security benefits.

Compact, reliable and cost effective, Homelink Extra is the best answer for safety and security in the home.

Programmable Options

Homelink Extra may be programmed locally or remotely. The options include:

- Personal alarm monitoring.
- Medical alert monitoring.
- Fire detection monitoring.
- Inactivity monitoring.
- Temperature monitoring.
