

SECURITY LIGHTING RANGE

'Stepping into the light: A sense of security'

A PROFESSIONAL SECURITY LIGHTING SOLUTION IS MUCH MORE THAN JUST A 'COURTESY' PRODUCT AND NOT JUST NICE TO HAVE: IT IS ESSENTIAL. WHATEVER YOUR SAFETY OF SECURITY REQUIREMENTS, GJD CAN PROVIDE LOW VOLTAGE MOVEMENT DETECTORS AND CONTROLLERS THAT ARE CAPABLE OF SIMULTANEOUSLY TRIGGERING NOT ONLY FLOODLIGHTS OR INFRARED ILLUMINATION CONTROL, BUT ALSO ACTIVATING INDIVIDUAL CCTV CAMERAS, DVR'S, PAGERS AND OTHER ALARM WARNING DEVICES.

GJD020 **OPAL XL EXTERNAL**

- IP55 rated
- 10 to 35 metre (adjustable)
- 180° pan & 90° tilt

GJD332 **MINI OPAL EXTERNAL**

- IP55 rated
- 10 to 30 metre (adjustable)
- 180° pan & 90° tilt
- Front & Rear Tamper

OPAL XL EXTERNAL PIR

Works in conjunction with the following GJD indoor lighting controllers:

- Sapphire Mk3
- Emerald Mk3
- Solitaire 2 Zone Expansion Unit
- DygiZone 4 Zone lighting controller / enunciator
- 4 Zone Expansion Unit

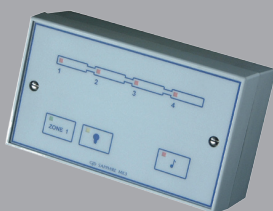

MINI OPAL EXTERNAL PIR

An adjustable range PIR with front & rear tamper switches and sliding curtains to aid installation and field of view alignment. Modelled after the modern & stylish look of the D-TECT range of detectors.

GJD Mini Opal detectors are designed for outdoor use in conjunction with the following GJD indoor lighting controllers:

- Sapphire Mk3
- Emerald Mk3
- Solitaire 2 Zone Expansion Unit
- DygiZone 4 Zone lighting controller / enunciator
- 4 Zone Expansion Unit

GJD005
SAPPHIRE 1500 MK3

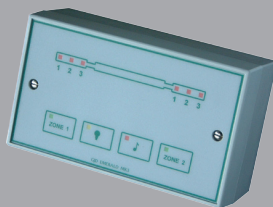

SAPPHIRE 1500 MK3

A stand alone single area security lighting controller, which enables external areas to be accurately monitored. Automatically switches up to 1500 Watts of lighting at night for a pre-set period and can be manually overridden when required.

Incorporates an audible warning tone and features four detector indicators which illuminate when activated by detection, day and night.

- 1500 Watts of lighting
- Four detector indicators
- Compatible with all GJD PIR Detectors

GJD010
EMERALD 3000 MK3

EMERALD 3000 MK3

A stand alone dual area security lighting controller which enables external areas to be accurately monitored. Automatically switches up to 3000 Watts of lighting at night for a pre-set period and can be manually overridden when required. Incorporates an audible warning tone and features six detector indicators which illuminate when activated by detection day and night.

- 3000 Watts of lighting
- Six detector indicators
- Compatible with all GJD PIR Detectors

GJD910
DYGIZONE 4 ZONE LIGHTING CONTROLLER

DYGIZONE 4 ZONE LIGHTING CONTROLLER

GJD's next generation release of its very successful Solitaire range. A 4 zone, low voltage, lighting control / enunciator, which works in conjunction with the solitaire 2 Zone Expansion Unit and the new 4 Zone Expansion Unit. Additional controllers can be added to the system to give control points in more than one location.

Individual zone timers, user recordable messages and much more.

- 2 programmable timers per zone
- Audible beep or locally recorded message alert for activations in each zone
- Up to 3 x DygiZone panels per system
- Adjustable volume and brightness control
- Compatible with all GJD PIR Detectors
- Silver or White housing

GJD012
SOLITAIRE 2 ZONE EXPANSION UNIT

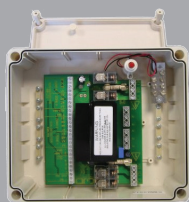

SOLITAIRE 2 ZONE EXPANSION UNIT

Works in conjunction with the DigiZone Lighting Controller and GJD's passive infrared detectors. The modular design enables the Expansion Unit to be conveniently installed within easy access to a mains supply.

- Switches two lighting zones up to a maximum of 1500 Watts per zone
- Compatible with all GJD PIR Detectors

GJD040
4 ZONE EXPANSION UNIT

4 ZONE EXPANSION UNIT

Designed to work with the GJD DygiZone lighting controller and outdoor detectors this new unit greatly simplifies installation time and cost; incorporating an energy efficient switched mode power supply and can control up to four individual lighting circuits each with 1500W resistive load.

- IP65 Rated
- Integral 1 Amp 12 VDC power supply
- 6000 Watts of lighting can be switched per unit
- Compatible with all GJD PIR Detectors
- Contact Technical Helpline for advice on switching up to 30,000 Watts on one lighting system
- IP65 housing with tamper switches
