

## **Remote control transmitters, receivers & Infra-red safety beams**

**Sentry** short range frequency @433.92 MHz, range up to 100 metres in clear line of sight.

### **Sentry Fob Transmitters**

- 1, 3 & 4 channel
- Key fob type
- DIP Switch (French Rolling code 1 & 3 channel) or Pre-programmed coding (Code Hopping 1,3 & 4 channel)
- Cased in high quality ABS / PVC
- 433.92 MHz
- Surface mounted technology
- SAW resonator stabilised
- Power by ready available internal 12v batteries (L1028 12 volt)
- Output power +1- 0,25mW.
- Stability + 1- 50 KHz.
- Size- 65mm x 32mm x 14mm.
- Range up to 100 meters clear line of sight (dependent).

### **Options of:**

**French Rolling code** dip switch coding (1,048,576 combinations, 28 bit)

1 & 3 channel transmitters and receivers. (Unlimited number of transmitters can be used with each receiver, all transmitters must be set to the same code)

### **PRODUCT REF:**

**SEN/R/T1** -1 channel French rolling code transmitter colour: red & black casing

**SEN/R/T3** - 3 channel French rolling code transmitter, red & black casing

**SEN/BR/R1**- 1 channel French rolling code receiver, black casing

**SEN/BR/R3** - 3 channel French rolling code receiver, red & black casing

\*FRENCH ROLLING CODE TRANSMITTERS & RECEIVERS ARE NOT COMPATIBLE WITH CODE HOPPING.
