

WIN-PAK® 4.9

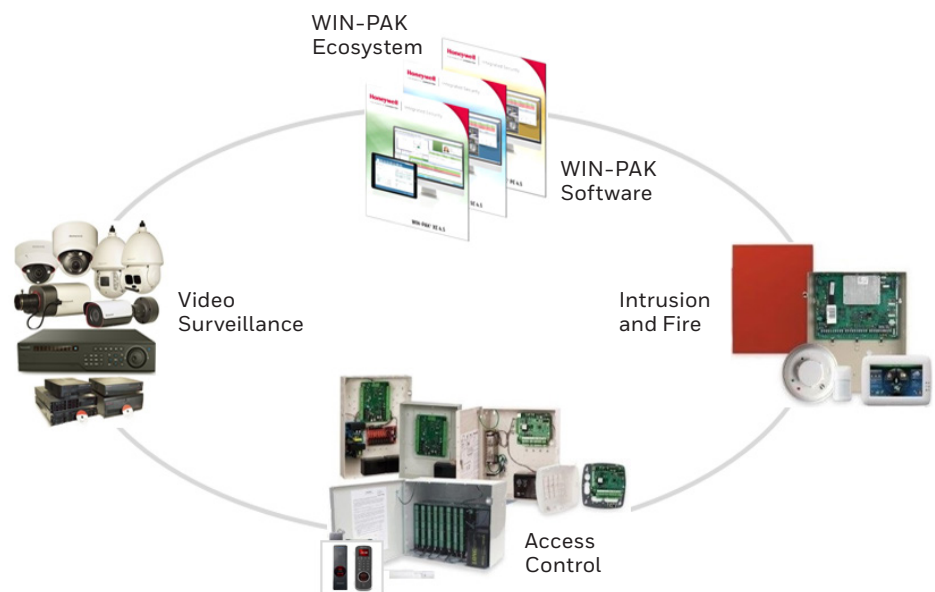

Integrated Security Solution

Honeywell's WIN-PAK 4.9 software solution provides a cost-effective way to integrate and manage Access control, Video surveillance, and Intrusion detection through a single interface.

WIN-PAK 4.9 provides an intuitive browser-based interface allowing users to perform common access control actions from virtually anywhere enabled with Video verification and surveillance, secured by Intrusion detection system and Fire notifications. WIN-PAK 4.9 can be easily scaled from a single site up to a multi-region, enterprise-level solution with multiple Accounts and Sub accounts, all without placing restrictions on the number of users or sites being managed.

WIN-PAK 4.9 supports direct integration with HID's Origo 2.0 Mobile Access® and Suprema® Biometrics. Using WIN-PAK's API your software developers can create custom integrations to meet your integration needs such as point-of-sale systems, Visitor management, Elevator control, HR applications.

FEATURES AND BENEFITS

ELIMINATES DISPARATE SYSTEMS AND INTERFACES

- Integrated access, video, intrusion, and fire* systems through one interface
- Direct management of Selected Suprema biometrics reader using controller/reader

INCREASES SITUATIONAL AWARENESS, ELIMINATES COSTLY FALSE ALARMS

- Disarm intrusion system through any valid card swipe at an access control reader
- Arm intrusion system through a valid triple-swipe at an access control reader
- Coordinate intrusion, access, or fire* events with video actions to maximize awareness

MINIMIZES MAINTENANCE AND SYSTEM SUPERVISORY COSTS

- Customizable and automated system reporting functions with email delivery
- Perform common daily access control tasks from anywhere through the web interface
- Included API for custom integrations to third-party systems

SCALES AS YOUR BUSINESS GROWS

- Unrestricted number of cardholders and system users
- Unrestricted number of sites and access points
- Accommodates up to 40 recorders and 2,560 cameras.

MINIMIZES ONBOARDING AND TRAINING COSTS

- Intuitive web interface for access management, with embedded Help tool

MINIMIZES SERVER DEPLOYMENT COSTS

- Supports VMWare 6.5 to help leverage existing IT infrastructure and server assets
